Experience

Junior Software Engineer

Way2News — JUN 2023 – PRESENT

- Architected and scaled a multi-tenant ad management platform powering 4 business units, reducing campaign planning time by **30%** and increasing ad delivery efficiency by **20%**.
- Designed and implemented a high-throughput Kafka consumer-producer pipeline to handle **50** millions of ad impressions daily, ensuring low latency processing and data consistency.
- Automated end-to-end PDF and Excel report pipelines, saving over **60** hours/month previously spent on manual report generation.
- Developed real-time Slack and WhatsApp alerting system using Puppeteer and cron jobs, decreasing incident response time by **30%**.

Software Engineer Trainee

Way2News — OCT 2022 – JUN 2023

- Developed APIs and DB schemas for ad placement logic; decreased ad error rate by **20%**.
- Assisted frontend feature rollouts using React and Tailwind CSS, improving component reuse by **40%**.
- Contributed to production deployments and code reviews, gaining deep understanding of scalable full-stack systems.

Projects

Knowledge Base — React, TailwindCSS, Appwrite, Shadcn

GitHub: [Lokesh396/Knowledgebase](#)

- Centralized documentation platform with role-based access, rich text editing, and full-text search.
- Built with Appwrite backend, React to reduce onboarding time and knowledge silos.

YouTube Shorts Automation — React, Tailwind CSS, Flask

GitHub: [Lokesh396/youtube-video-automation](#)

- Automated Gita quote video generation pipeline using Python, moviepy, and React; crossed **60K+ views in 10** days.
- Designed for scale with MongoDB metadata store and React Query for frontend fetching.

DevPortfolio — React, Tailwind CSS

GitHub: [Lokesh396/Portfolio](#)

- Modern personal portfolio with SEO optimization, project showcase, and downloadable resume.
- Fully customizable portfolio site powered by data files; enables developers to launch a personal site in minutes without touching code.

Technical Skills

Languages: JavaScript, Python, SQL, HTML, CSS

Frontend: React, React Query, Tailwind CSS, Shadcn

Backend: Node.js, Express.js, Flask

Developer Tools: Git, GitHub, Docker, Redis, Linux, VS Code, Postman

Libraries/Tech: Redux Toolkit, Puppeteer, Kafka, Appwrite, moviepy

Databases: PostgreSQL, MongoDB, Redis, Clickhouse

Other: OOPS, Data Structures, Algorithms, AWS (S3), DBMS

Education

B.Tech in Computer Science and Engineering

IIIT RK Valley, RGUKT

CGPA: 8.65 / 10

2019–2023

Certifications

- Tech Interview 101: From DSA to System Design for Working Professionals

GeeksforGeeks, 2025
