

C LOKESH KUMAR REDDY

Software Engineer — Full-Stack Developer

• lokeshkumarreddy.c@gmail.com • +91 9502921597
• [LinkedIn](#) • [GitHub](#) • [Portfolio](#) • [LeetCode](#)

Professional Summary

Full-stack developer with 2 years of experience in building scalable web applications. Expertise in React, Node.js, and databases. Strong problem-solving skills with a passion for algorithms and system design.

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering

IIIT RK Valley (Rajiv Gandhi University of Knowledge Technologies)

2019-2023 — CGPA: 8.65/10

Relevant Coursework: Data Structures & Algorithms, Computer Networks, Operating Systems, Linux

Experience

Way2News — Junior Software Engineer

Hyderabad, India • *June 2023 – Present*

Way2News Ads (Ad Management & Reporting System)

- Developed and scaled an **ads panel**, similar to Google Ad Manager, handling millions of impressions daily using Kafka's Producer-Consumer model for efficient processing.
- Built **real-time dashboards** with ad insights, user analytics, and performance tracking using **React & PostgreSQL**.
- Automated **WhatsApp reports**, reducing manual reporting time by **80%** via **Gupshup API**.
- Implemented **security enhancements**, including **2FA authentication with OTP verification** and browser fingerprinting.
- Designed **multi-user role-based dashboards** to track ad performance, user engagement, and revenue analytics.
- Led the development of features for **brand management, sales performance tracking, account management, and brand interactions**.
- Built **market share tracker** and **market share analysis tools**, enabling data-driven decision-making for Sales Persons.

Way2Locations (Location Management Panel)

- **Independently developed the frontend** for the Way2Locations Panel, handling **AP & Telangana's district bifurcation**.
- Designed an **intuitive UI** using **React & Bootstrap**, allowing **seamless reorganization** of districts, mandals, and constituencies.
- Implemented efficient **search & filtering functionalities** to streamline location management.

Way2News — Software Engineering Trainee

Hyderabad, India • *Oct 2022 – June 2023*

- Assisted in the development of **Way2Ads**, contributing to the backend API development and UI enhancements.
- Gained experience in **database design, API integration, and frontend optimization**.

Technical Skills

- **Frontend:** React.js, JavaScript, HTML, CSS, TailwindCSS
- **Backend:** Node.js, Express.js
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Languages:** Python (used for problem-solving on LeetCode)
- **Other:** Git, REST APIs, JWT Authentication
- **Tools & Platforms:** Kafka, Gupshup API

Certifications

- From DSA to System Design for Working Professionals (GeeksforGeeks)
